[Geometer S Sketchpad 5 Keygen For Mac](#)

The screenshot shows the ActiveXperts SNMP Browser application window. The title bar reads "ActiveXperts SNMP Browser". The menu bar includes "File" and "Help". Below the menu bar, there is a header for "ActiveXperts software" with a sub-header "ActiveXperts SNMP Browser uses ActiveSocket Network Communication Toolkit.".

The main interface is divided into several sections:

- MIB Tree:** A tree view on the left shows the hierarchy of MIB nodes. The selected node is "sysContact" under "system" in the "mib-2" subtree. A note below the tree states: "(Blue indicates a User MIB node. Normal indicates a System MIB node)".
- MIB File:** A text field shows the path "C:\Users\Softpedia\Desktop\Softpedia.mib" with "Load" and "Unload" buttons.
- Properties Panel:** On the right, fields display the selected node's details: OID: 1.3.6.1.2.1.1.4, Name: iso.org.dod.internet.mgmt.mib-2.system.sysContact, Syntax: DisplayString, Access: READWRITE, Status: MANDATORY, and a Description: "The textual identification of the contact person for this managed node, together with information on how to contact this person."
- SNMP Operation:** A section for performing operations with fields for Host (localhost), Port (161), Community (public), and Version (SNMP v2c). It includes buttons for "Open", "Close", "Get", "Get Next", "Walk", and "Set".
- Table:** A table with columns for "OID", "Name", "Type", and "Value" is currently empty.
- Result:** A section for displaying the results of an operation, with a "View" button.
- Log File:** A text field shows the path "C:\Users\Softpedia\AppData\Local\Temp\tmp8231.tmpSnmplibLog.txt" with a "View" button.

At the bottom of the window, there is a footer with a copyright notice: "ActiveXperts SNMPBrowser is freeware. It uses ActiveSocket Network Communication Toolkit. For more information on ActiveXperts Network Communication products, click here." and a "Close" button.
